*“Vitamins A & E in a
water soluble form for
enhanced absorption”.*

Description:

Bio-Logical Vitamins A & E Solution 50mL is an antioxidant formulation and contains a specially prepared water soluble form of vitamins A & E in a clear solution. Solutions are particularly useful for those who have difficulty in swallowing tablets or capsules. This convenient, tamper-evident bottle of vitamins A & E comes in a box containing a graduated dropper for ease of measurement.

Indications:

For Vitamin A and Vitamin E supplementation.

Composition:

Each adult dose (1 mL) of *Bio-Logical Vitamins A & E Solution* contains

Vitamin A
(as Retinyl palmitate)..... 1.2 mg
giving 2210 IU of vitamin A (or 663mcg Retinol Equivalents) and

Vitamin E Natural
(as d-alpha-tocopheryl acetate)75 mg
giving 102 IU of Vitamin E

in a specially prepared water soluble form for enhanced absorption.

It is free from added sugars, yeast, starches, gluten, wheat, corn, other cereals, dairy products, flavours and colouring. Contains sodium benzoate.

Directions for Use:

Using the dropper take the appropriate dosage in a glass of water or juice. May be taken with or without food.

Dosage:

As directed by your practitioner or:

Adults: 1mL daily.

Children: As professionally prescribed.

Precautions:

Vitamin supplements should not replace a balanced diet. **The recommended daily amount of vitamin A from all sources is 700 micrograms retinol equivalents for women and 900 micrograms retinol equivalents for men.**

Warning:

When taken in excess of 3000 micrograms retinol equivalents, vitamin A can cause birth defects. If you are pregnant, or considering becoming pregnant, do not take vitamin A supplements without consulting your doctor or pharmacist.

Always read the label. Use only as directed.
